SAMI GABOL

web developer

Profile

I am a frontend web developer specializing in creating high-quality websites, including e-commerce sites, blogs, and portfolios. With a focus on responsive design, I ensure that all websites look great and work smoothly on any device, whether it's a desktop, tablet, or smartphone. I bring a passion for clean, modern designs and provide excellent user experiences.

Education

I am currently enrolled in the Governor's Initiative on Artificial Intelligence and Cloud Computing and hold a certification as a Cloud Applied Generative AI Engineer (2023 - present)
